

Frames for concealed sockets

TECHNICAL FEATURES

Hide4 is the only concealed socket compatible with 4-module boxes for masonry walls or mobile partitions on the market (see compatibility table) which only protrudes from the wall by 11 mm.

It consists of three elements: a frame with connections for electrical or signal devices which contains the plugs connected to it; a cap that closes the inspection compartment; a sliding/tilting cover.

Main features of the hide frames

Self extinguishing Bayblend PC+ABS V0 frame and cap

Connection compatibility

Hide - Vimar Plana - Gewiss Chorus

Regulatory conformity

CE Mark

Colours

White - Techno Grey - Anthracite Grey
